Iridescent Pearl Pigment

★★★★★ *A Symbol of Quality*

These Pearl Pigments are natural mica based metallic pigments, Consist of mica coated with TiO_2 , depending on different thickness of TiO_2 can create rich Pearl effect. Through controlling the different thickness of TiO_2 . It shows an impressive display of colors floating from Off white to green tone. This is non-Toxic Pigment.

These pearl pigment have ability to change white from dual effect to various colour by adding pigment or dyes in any kind of plastic

- This pearl pigment works well in various kind of plastic like:- Plastic Ld, Hd, Pp, Polyester, Pvc, Engineering Plastic, ABS & Nylon etc and also widely used in industries like Paint, Ink, Cosmetics, Rubber, Textile, Paper, Art & Craft etc.
- Easy to use in plastic
- Easy to mix
